**30**

**Collection - MODERN**

Abstract designs with the best quality of its kind. Ultra soft with botanic silk and easy maintenance, our best seller.

## OUR STORY

---

Coming from luxury hotels and interior design background, we have been sourcing for quality homeware with best values in the market. While we struggle to find modern and contemporary rugs with comfortable eco-friendly natural materials, we have decided to create our own supported by some of the best manufacturers we have shortlisted out of many. This is how RBD was born in Singapore.

RBD believes in more grounded and connected modern living, hence we prefer rugs made in natural materials to bring our homes liveliness and comfort, New Zealand Wool, Bamboo silk, Tencel Silk are our favourite. Visit our showroom to see and feel the difference!

Since designing and making rugs for our interior projects since 2021, the feedbacks from customers are so positive and encouraging, we then establish collections and offer our services to retail clients too who need help and guidance to choose the right rugs.

Rugs By Design is part of LSM HOME Ltd. We are dedicated to home interior design, hotel quality homeware and home styling services.

Modern Rugs for Luxury Homes!

## OUR SERVICES

---

At RBD not only you can shop for our curated luxury modern rugs online or in our showroom, you will also get one on one support from our interior designers should you require guidance for sizing, designs or colours. Send us a photo of your space and let our interior designers to suggest suitable rug options for you! Easy as that!

We offer a home consultation as part of our personalized service, during which rugs samples will be brought to your home so that you get to see how the designs and colours work at your home before committing. Give us a call or connect us via whatsapp, rest we can guide you through.

We stock collections of luxury botanic silk rugs with modern abstract and classic designs. While our artisan collections which are preorder handmade range.

Why Bespoke? Because sometimes you can have it All: the right design, size, materials can come together for your perfect piece of rug, with our designers and artisans' teamwork.

## **BRING NATURE INTO YOUR HOME**

### Benefits of Botanic Silk

---

While looking for the most comfortable and soothing materials for the skin, due to my daughter's eczema, I have come across botanic silk like Bamboo Silk and Tencel Silk. I was thrilled to find out they are widely been used in rugs nowadays which means my daughter can roll around on the floor (and she does! In fact she was doing snow angel when the rug got unrolled!).

Botanic Silk is the closest to real silk in textures but costs much less and lower maintenance.

Botanic Silk are naturally temperature and moisture regulating which adds that nature element in your home, while bring you ultra comforts.

Do you know Bamboo is a type of grass? It grows incredibly fast in natural environment, making it one of the most sustainable materials.
